EGRISS GLOBAL ANNUAL
INCLUSION (GAIN) SURVEY QUESTIONNAIRE
2024

SURVEY INTRODUCTION PANEL	INT

INT01. *Day / Month / Year of interview:* ___ ___ / ___ ___ / _2_ _0_ _2_ ___

INT02. As part of ongoing efforts to capture examples of how countries produce official statistics on forced displacement and statelessness and make use of the International Recommendations on Refugee, IDPs and Statelessness Statistics (IRRS, IRIS and IROSS) to do so, the UNSC mandated Expert Group on Refugee, IDP and Statelessness Statistics (EGRISS) Secretariat conducts an annual Implementation Monitoring Survey.

To obtain an annual overview for 2024, we are currently collecting responses to the third iteration of this survey which has an expanded scope from previous years.

We would like to invite you to kindly provide us with an update on previous examples you may have submitted and/or new ones that have either been completed or have significantly progressed within the year. In 2024 we have added a few questions about any important upcoming examples planned to start in 2025.

Personal information you provide will be anonymized. Your name, position and contact information will only be used for internal purposes and will not be published.

The results from this survey will support our work to monitor progress made to improve the production of official statistics on refugees, IDPs and stateless persons and make use of the recommendations at national, regional, and global levels. They will also inform the development and prioritization of activities in the year ahead. Information will be used to report back to the UN Statistical Commission on implementation progress.

Thank you for your participation!
